A BILL

To establish the Manhattan Project National Historical Park in Oak Ridge, Tennessee, Los Alamos, New Mexico, and Hanford, Washington, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

1 **SECTION 1. SHORT TITLE.**

2 This Act may be cited as the “Manhattan Project Na-
3 tional Historical Park Act”.

4 **SEC. 2. FINDINGS.**

5 Congress finds that—

6 (1) the Manhattan Project was an unprece-
7 dented top-secret program implemented during
8 World War II to produce an atomic bomb before
9 Nazi Germany;

10 (2) a panel of experts convened by the Presi-
11 dent’s Advisory Council on Historic Preservation in
12 2001—

13 (A) stated that “the development and use
14 of the atomic bomb during World War II has
15 been called ‘the single most significant event of
16 the 20th century’”; and

17 (B) recommended that nationally signifi-
18 cant sites associated with the Manhattan
19 Project be formally established as a collective
20 unit and be administered for preservation, com-
21 memoration, and public interpretation in co-
22 operation with the National Park Service;

23 (3) the Manhattan Project National Historical
24 Park Study Act (Public Law 108–340; 118 Stat.
25 1362) directed the Secretary of the Interior, in con-
26 sultation with the Secretary of Energy, to conduct a

1 special resource study of the historically significant
2 sites associated with the Manhattan Project to as-
3 sess the national significance, suitability, and feasi-
4 bility of designating 1 or more sites as a unit of the
5 National Park System;

6 (4) after significant public input, the National
7 Park Service study found that “including Manhattan
8 Project-related sites in the national park system will
9 expand and enhance the protection and preservation
10 of such resources and provide for comprehensive in-
11 terpretation and public understanding of this nation-
12 ally significant story in the 20th century American
13 history”;

14 (5) the Department of the Interior, with the
15 concurrence of the Department of Energy, rec-
16 ommended the establishment of a Manhattan Project
17 National Historical Park comprised of resources
18 at—

19 (A) Oak Ridge, Tennessee;
20 (B) Los Alamos, New Mexico; and
21 (C) Hanford, in the Tri-Cities area, Wash-
22 ington;

23 (6) designation of a Manhattan Project Na-
24 tional Historical Park as a unit of the National Park
25 System would improve the preservation of, interpre-

1 tation of, and access to the nationally significant his-
2 toric resources associated with the Manhattan
3 Project for present and future generations to gain a
4 better understanding of the Manhattan Project, in-
5 cluding the significant, far-reaching, and complex
6 legacy of the Manhattan Project; and

7 (7) the permanent historical preservation of the
8 B Reactor at Hanford as part of the Manhattan Na-
9 tional Historical Park would provide significant sav-
10 ings to the Federal Government relative to placing
11 the reactor into interim safe storage and subse-
12 quently dismantling the reactor—

13 (A) as determined as part of the Record of
14 Decision entitled “Decommissioning of Eight
15 Surplus Production 3 Reactors at the Hanford
16 Site, Richland, WA”; and

17 (B) as included within milestone M-093-
18 00 of the Hanford Federal Facility Agreement
19 and Consent Order.

20 **SEC. 3. PURPOSES.**

21 The purposes of this Act are—

22 (1) to preserve and protect for the benefit and
23 education of present and future generations the na-
24 tionally significant historic resources associated with
25 the Manhattan Project;

- 1 (2) to improve public understanding of the
2 Manhattan Project and the legacy of the Manhattan
3 Project through interpretation of the historic re-
4 sources associated with the Manhattan Project;
- 5 (3) to enhance public access to the Historical
6 Park, consistent with protection of public safety, na-
7 tional security, and other aspects of the mission of
8 the Department of Energy; and
- 9 (4) to assist the Department of Energy, Histor-
10 ical Park communities, historical societies, and other
11 interested organizations and individuals in efforts to
12 preserve and protect the historically significant re-
13 sources associated with the Manhattan Project.
